SPECIAL NOTICES.

Balsam of Wild Cherry.
A following testimony from a well known and
highly respected Merchant of Vermont, is cor-
roborative of the general opinion given to
DR. WISTAR'S BALSAM OF WILD
CHERRY. Present, C. W. Deo, 30, 10th
Street, N. W. FOWLER & Co., Agents.
(Grafton).—I am hereby solicited by your Trevel-
lins, for an expression of opinion of Dr. Wist-
ar's Balsam of Wild Cherry. With pleasure name that it
is in my belief, the best remedy before the public for
croup and pulmonary complaints.
I have used it in my family with great benefit, and
in cases of asthmas, coughs and rufles, for years, with suc-
cess and unexceptionable success. I unhesitatingly
recommend it with full confidence to its merits.
Yours truly,
ALFRED HOOKER.

Cornwall, C. W., Dec. 20, 1909.

Genrs. A. & W. FOWLE & Co., Boston.

Having experienced the beneficial results of Dr. Wistar's Balsam of Wild Cherry, in my own person and with other members of my family, I cannot but warmly enough and cordially & unhesitatingly give you my testimony, believing it to be the remedy par excellence for all diseases of the throat and chest, and would cordially recommend it as such.

Yours truly,
JOS. TANNER

Balsam of Wild Cherry.

Testimony from L. B. Lamontagne, of the Journal National, Quebec, Quebec, C. E.

MR. BETTIE W. FOWLE,

Dear Sir:—I am now three years since first began

Wistar's Balsam of Wild Cherry for my wife, I was troubled a long time with the Asthma, and a continued cough, which prevented her from follow-

of great occasion. After having made use of
bottle, she received great benefit from their use.

WANTED,

COOK, in the family of a Clergyman of the Church of England, in the country.—ages liberal. Apply to
R. C. P. O. Hillier,

THE GRAND TRUNK RAILWAY CO.
—We insert to day an important notice—

which are received by the "Ferreira" company. It is a report of the London Directors of the Grand Trunk Railway Company to the London Shareholders. It contains the following important announcements. One that the Government of Canada have promised to take up before Parliament; another that the Government are about to appoint a commission to enquire into the affairs of the Company; and another, which is substance was previously stated, that the judgment rendered by the London Directors, Messrs. Brothers & Co. and Messrs. Glyn, & Co., is to guard against the possibility of individual claims, and for the benefit of all present creditors. The first announcement was made at the

inability to see the utility of a proceeding the Company's application for leave to bring the matter before the Privy Council for Parliament, unless Ministers are prepared to recommend that it be so done. The course seems to us to be an entirely one. If the Government feel they cannot grant further aid, if they think the Province cannot bear additional present heavy burden with safety credit, that the tariff is quite as it can be put for revenue purposes even in some instances, that we cannot go further without resorting to direct taxation, most unsophisticated people would be their clear and simple duty in the way of any further draught

Mr. [unclear] must be some mistake in the statement that the Government could pursue an unusual course, as to an important matter, when open to the House. I do not understand the statement in the Grand Transcript to report in any other sense, and I am sure that the Government do intend to be responsible of recommending a course, for which we have all understood they feel themselves unable and willing to do. Further explanation is required. It is inconvenient that it is ministerial announcements should be made in such a way, and he begged

COMMERCIAL REVIEW.

MONTRÉAL, NOV. 18.

The main feature in our wholeness of the dullness and still down the tendency of Breadstuffs. The great Wheat and Flour, continue exceedingly low.

There has been a good deal of action in quotations of Flour this Fall out of the following circumstances:—The Montreal Inspection does not pass a barrel of wheat, owing to the better it is below two years ago, and the

churs for the Quebec market per-
son on their own judgment, and get
inspection here deducted. They
low flour at the Sheds, and save
of cartage; and many lots are
enough order to go to Quebec
cooperage. There have, therefore,
considerable sales at the Sheds
Grand Trunk terminus, at a shilling
which was equivalent to the deduction
the above charges, amounting in 1890
to 11 cents a-barrel, according to the
tances carried. Now, in quoting
sometimes the low price has been
and sometimes the long price, for
the charges in question were de-

But in any way, the net result was a loss, but the apparent price might be different. For example, let us suppose that a bushel of Flour sold at \$5.20, and the chaser for all the charges, of this Flour according to bargain, at \$5.10. This Flour either be invoiced at \$5.20, less a discount for charges, or \$5.124 net, and a discount for charges—*Winest.*

To such Mr. Green's narrative was very instructive.

— A speculator is erecting at a large henry, two stories in height or three, and four feet in length. It is to be put up in the month of next spring or summer to have as samples of choicest American and breeds of fawns and cocks.

— A few days since, a lady died delphia, 107 years of age, and one of her (her) funeral there was present, there and sister, the youngest being 70 years of age, and the oldest being 107. A sight like this has but seldom if witnessed in any other country.

ST Selin Sharif and Sarah Papp has been fully committed to stand at the next Spring Session. Selin has been discharged from custody.

ST The New York Committee for the Prince of Wales has made a full adjustment of their accounts and a surplus of \$12,200 on hand. The executive Committee of the 400 members check to each of the 400 members General Committee for \$30.65, the balance to which they are entitled. The total of the ball was \$29,740.

ST Mr. G. L. Brown's fine picture of Hay and City of New York has been sold to the U. S. Navy.

[illegible]

Cautious Advice—Abernethy of a rich but dirty patient, who came him about an eruption: "Let your patient bring to you three or four pairs of clothes and put it into a wash-tub; take the clothes and get into it, and rub your body with soap and a rough towel, and I will cover." This advice seems much like what to wash myself," said the "Well," said Abernethy, "it may be such a construction."
